

Letter of Guarantee on Hazardous substance to Environments

1. Our company presents <the Letter of Guarantee on the Hazardous substance to Environments> to guarantee the environmental-friendliness of our products in response to the international regulation on hazardous substance to environments.
2. All Copper and Copper Alloy products manufactured from our company doesn't contain PFOA, and also we do not use PFOA in manufacturing process.

► **PFOA (Perfluorooctanoic Acid)**

- PFOA is a type of Poly- & Per-fluorinated Compounds, used as a catalyst in the process of production of fluoride resin. PFOA accumulates in the body when ingesting food mixed with ingredients or inhaling through the nose and the animal experiments have shown that it causes cancer or endocrine disorder.
- PFOA is mostly used as a coating material for Teflon frying pans that do not stick to food and single-use containers such as paper cups. And PFOA is also used for prevention of contamination of carpets, outdoor waterproof coatings, and semiconductor cleaning.

* Chemical Structure of PFOA (**Metal has no chemical structure.**)

3. POONGSAN hereby certifies the above statement to be true. If the above statement turns out to be false, we guarantee to take full responsibility for all matters.
