

Letter of Guarantee on Hazardous substance to Environments

1. Our company presents <the Letter of Guarantee on the Hazardous substance to Environments> to guarantee the environmental-friendliness of our products in response to the international regulation on hazardous substance to environments.
2. The following substance(s) are not contained in the copper and copper alloy products by POONGSAN and are not used in manufacturing.

► **POPs (Persistent organic pollutants)**

Persistent organic pollutants (POPs) are organic compounds that are resistant to degradation through chemical, biological, and photolytic processes. They are toxic chemicals that adversely affect human health and the environment around the world.

Most POPs are pesticides or insecticides, and some are also solvents, pharmaceuticals, and industrial chemicals.

The POPs identified by the Stockholm Convention include aldrin, chlordane, dieldrin, endrin, heptachlor, HCB, mirex, toxaphene, PCBs, DDT, dioxins, and polychlorinated dibenzofurans. However, there have since been many new POPs added, for example PFASs.

3. POONGSAN hereby certifies the above statement to be true. If the above statement turns out to be false, we guarantee to take full responsibility for all matters.
